

PAUL TURPIN - GREEN CANDIDATE

I am proud to be standing in Gleadless Valley; the ward that I have called home for nearly 20 years. I'm a self employed electrician and married with two lovely children. My daughter attends our local primary school. My life is this area and this area is part of us.

I grew up in a single parent family on a northern council estate and understand how these communities are forgotten when politicians become too complacent.

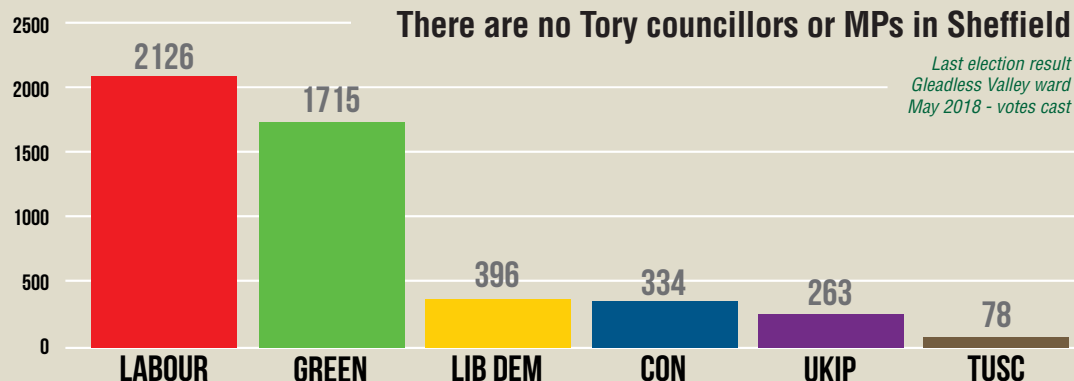

My top priority is people's well-being, including their economic security and to have somewhere safe and pleasant to live.

I want to stand up for what matters; to be the voice of the people, not the voice of the council leader. I will stand up for Green politics; having decisions made as locally as possible, genuinely protecting our environment and fighting inequality for a better future

SHEFFIELD COUNCIL ELECTIONS
THURSDAY 2ND MAY 2019

IT'S GREENS OR LABOUR HERE

TURPIN, Paul

Green Party

For election information, contact Sheffield Council election office on 0114 2734093.

Promoted by Eamonn Ward, 73 Eskdale Rd, Sheffield, S6 1SL on behalf of Paul Turpin.

VOTE FOR THE CHANGE WE NEED

GREENS ARE BUSY ACROSS SHEFFIELD

- Greens in Gleadless Valley have pushed for cleaner air and cleaner, safer streets
- Greens are active in Gleadless Valley with litter picking and recycling
- Greens in Gleadless Valley support local community projects
- Greens locally demand urgent action on the devastating impact of climate change

CHOOSE GREEN

BETTER TRANSPORT

GREENS support cleaner, healthier transport, with stronger bus regulation, more cycling investment and re-opening of local rail lines and stations.

The **LABOUR**-run Council have failed to cut congestion and dangerous air pollution. They cut public transport funding and raised residents' parking permit prices.

A CARING CITY

GREENS would invest in good quality housing and better mental health services. Our budget proposed £1 million more for social care.

The **LABOUR** Council have failed to build many new houses or produce the city development plan. They have cut street cleaning.

AN OPEN COUNCIL

GREENS want all 84 city councillors involved in decision-making, not just 9 Cabinet members. We'd let people see big Council contracts.

The **LABOUR** Cabinet makes big decisions behind closed doors and hides important information from the public.

VALUE FOR MONEY

GREENS opposed costly PFI contracts with big private multinational companies. We encourage local businesses - they keep money in the local economy.

The **LABOUR** Council spent £413,000 trying to jail peaceful street tree protesters. Thousands of healthy trees were felled that should have been saved.

DEMOLITION AND MISINFORMATION IN GLEADLESS VALLEY

Spring Close Mount is a threatened green space

A recent Freedom of Information request shows that, despite residents being given assurances otherwise, the Labour-run council planned to demolish parts of the Gleadless Valley estate **before** the Masterplan consultation began.

It would seem that the residents' wishes for refurbishment to provide safe, pleasant homes and their wish to preserve the trees and green spaces have been overlooked. The council doesn't make profit on rents from Gleadless Valley and there are concerns that they may be trying to make money by privatising the estate.
