

"This general election isn't just about Brexit – this is about the country we live in. Only a Green vote will prevent climate chaos, transform Britain whilst remaining in the EU, and elect more Green MPs that you can trust to keep the other parties honest. The time is now – please vote Green. **Vote Christine Gilligan Kubo**"

CAROLINE LUCAS MP

CHRISTINE'S PRIORITIES FOR SHEFFIELD

Sheffield's schools, colleges, hospitals, railways and buses should be properly funded and run for public good not private profit.

Greens will protect the NHS. We oppose the privatisation of the NHS and council services such as the Sheffield Highways PFI deal.

Schools must educate for life not just be exam factories. We oppose tuition fees and want to expand lifelong learning for all, supporting further education.

Green Party

YES TO EUROPE

Westminster politicians have an impossible task. Greens will give power back to the people to make an informed choice with a People's Vote. Greens are campaigning to Remain in the EU for the benefit of everyone.

NO TO CLIMATE CHAOS

Greens have led the way for decades on tackling climate chaos. Every Green vote helps speed up climate action. This means cheaper energy, better transport, warmer homes, and hundreds of thousands of new sustainable jobs – A Green New Deal.

A FAIRER BRITAIN

Cruel Austerity policies like the Bedroom Tax have widened inequality and led to food bank Britain. Greens will take the action needed to transform Britain.

INTRODUCING

CHRISTINE GILLIGAN KUBO

SHEFFIELD BRIGHTSIDE & HILLSBOROUGH

I lecture in Responsible and Ethical Business practice. I believe in an economy that works for all while protecting our natural environment for our grandchildren.

I'm a non-executive director of Sheffield Renewables and support the rapid transition from fossil fuels to renewable energy, creating new green jobs making the most of the manufacturing skills in this constituency.

EVERY VOTE FOR THE GREEN PARTY IS A VOTE FOR RADICAL ACTION TO STOP CLIMATE BREAKDOWN.

"Greens will tackle the underlying causes of Brexit: inequality, rising costs of living, zero hours contracts and food banks. We'll transform the UK with a citizen's income, green jobs, affordable education, and a reformed voting system so your voice will always be heard. On 12th December – vote Green."
