MAROOF RAOUF TO STAND IN LOCAL ELECTIONS

**We need another hard-working Green Party
councillor who will stand up for our area.**

Campaigner **Maroof Raouf** will be representing Sheffield Green Party in this years local elections on May 6th.

Maroof lives with his family off **Abbeydale Road** and is a teacher at a local secondary school.

Maroof said: **“Over the years, Green Party councillors have shown that they can be trusted to stand up for our area and I am wanting to continue that trend.**

“The choice at this election is clear, another Labour councillor you never hear from, or more year-round commitment from someone who’s priority is our area.”

The Lib Dems or Conservatives cannot win in Nether Edge & Sharrow. So, you can send a clear message that Sheffield Council need to pay attention to our area. – vote Maroof Raouf.

I have been working alongside your Green Party councillors, Alison Teal and Peter Garbutt, to improve our area.

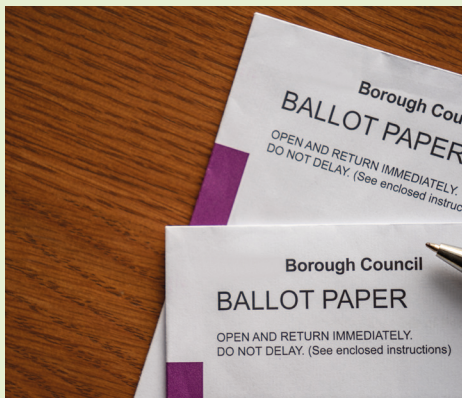

“We will continue to work hard for the local community all year round and to keep you informed, by reporting back in regular newsletters. I hope you will vote for me” – Maroof Raouf

MAROOF RAOUF: HERE ALL YEAR, NOT JUST AT ELECTION TIME

HOW TO REGISTER FOR A POSTAL VOTE

At the beginning of January, the government announced that local elections will still go ahead in 2021.

However, there will be people who feel they will not be able to vote in person on May 6th.

But you can still make sure you vote

in these elections by requesting a postal ballot paper.

To register for a postal vote you need to fill in an application form. You can request one by:

@ electoralservices@sheffield.gov.uk

ADDITIONAL STREET TREE PLANTING

The Green Party was heavily involved in the campaign to protect our local street trees.

After the controversy over the last few years, Sheffield Council finally sat down with campaigners to agree a new Street Tree Strategy, which was published last year.

Local Greens are delighted that now residents and community groups can purchase additional street trees, something that wasn't possible before.

The community group **Nether Edge and Sharrow Sustainable Transformation (NESST)** is aiming to more than double the number of street trees over the next 17 years, in the Nether Edge, Sharrow, Sharrow Vale, Carter Knowle and Highfield areas.

The group has already funded nine additional trees, due to be planted before April, with many more than that expected in winter 21/22.

Importantly, NESST wants to extend the street tree canopy onto roads with few or no street trees.

The cost of planting an additional street tree varies between £220 and

£550, depending on a number of factors.

If you would like to pay for a street tree outside or near your house, please contact Paul Selby at selbypaul@hotmail.com
