Greens have made a real difference in Sheffield

Green wins across the city in 2021 ended Labour's majority rule and made the council more open and transparent.

Your Green councillors have:

- secured commitments on **climate change in the planning system**
- made steps towards **large-scale home insulation schemes** and solar energy production on council houses, which will help with rising **energy prices and create green jobs**
- secured an inquiry into the **street tree felling** where the Labour run council were responsible for needlessly destroying thousands of healthy trees
- stood up against Labour, LibDem and Tory opposition to maintain pedestrianised spaces and create a **Clean Air Zone**, making **safer streets and a better environment** for our children.

WE'RE BACKING BEX WHYMAN FOR MAYOR!

This year, you also have a vote to elect a new South Yorkshire Mayor. Green candidate Bex Whyman works in education and lives in Sheffield. Bex's key priorities:

Cheaper energy bills - investing in insulation and renewable energy to cut heating bills, reduce greenhouse gases and create skilled jobs.

Better public transport - a Green Mayor will bring buses under public control, so we get better services. Bex will push for more funding for regional rail services and electrification of main lines.

More investment in the North - pushing hard for the government funding needed to deliver actual "levelling up" in our region.
