

**SHEFFIELD CITY COUNCIL
LOCAL ELECTIONS 2023**

A local election message from
RUTH MERSEREAU
Your Green Party candidate for City Ward

Dear Resident,

I'm writing to ask for your help to re-elect me as your local councillor on 4th May. I'd like to continue working in the community, alongside my fellow Green councillors, Douglas Johnson and Martin Phipps.

Since being elected in 2019, I've worked all year round with many individual problems: from accessing NHS care to improving poor housing, from noise issues to grants for local businesses. I've delivered thousands of our newsletters - to keep you up to date with what's happening.

A voice for local people - We've informed residents of planning and licensing applications. We campaigned for larger bedrooms in new buildings and supported residents' need for privacy and light. We've pressed for more green spaces. We support community groups, attend meetings, raise their issues and keep them updated on progress.

Standing up for your health and wellbeing - Your Green councillors have raised the importance of good mental health and local GP facilities. We've worked on drink spiking and women's safety and we're working with campaign groups to make the city centre a safer place for everyone.

I'm a member of the Transport, Regeneration and Climate Change Committee and have consistently campaigned for better air quality, and improved walking, cycling and public transport to address the **climate emergency**, as well as better road safety, especially for those most at risk of death and injury. I also sit on the Corporate Parenting group, where I've advocated for children/young people in care.

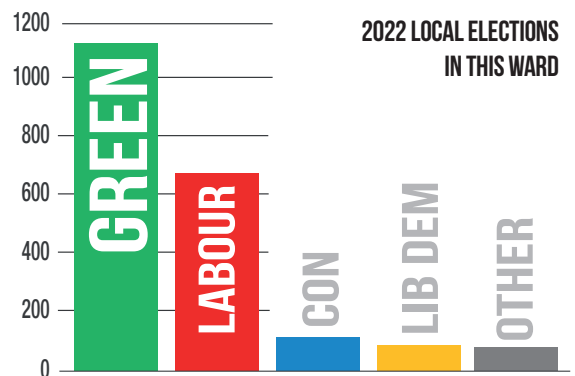

I've really enjoyed working with people from Highfield to Kelham Island and Neepsend over the past four years. I hope you'll vote for me on 4th May so I can continue to serve as your local councillor.

Thank you!

Yours sincerely

Ruth Mersereau

Green Party Councillor for City Ward
