

# SHEFFIELD GREEN PARTY 2024 MANIFESTO

A vote for a Green Party councillor is a vote for:

## ● A COUNCILLOR THAT LISTENS

- listening to people; getting their voices heard on local and global issues
- learning from the Street Tree Inquiry and Race Equality Commission
- listening to young people and supporting the organisations they trust
- removing barriers, so everyone is heard fairly

## ● A HEALTHIER, CARING CITY

- person centred care with joined-up services and better working conditions for carers
- more funding for advice services and hardship support for people who need it
- supporting people seeking sanctuary and being an anti-racist city
- more support for homeless people and local charities that help them

## ● JOBS IN A LOCAL ECONOMY

- training young people for jobs for the future, like in renewable energy and home insulation
- a living wage to fight poverty and the cost of living, not zero hours contracts
- protecting our heritage, working with local groups to promote the city's regeneration and culture
- supporting independent business keeping money in the local economy, not multinationals

## ● DECENT HOMES & NEIGHBOURHOODS

- investment in sustainable, warm and healthy housing to reduce energy use and bills
- more social housing and getting empty homes back into use
- balancing the night-time economy with residents' needs
- better recycling options
- safe, welcoming neighbourhoods with community green spaces and places to play

## ● BETTER PUBLIC TRANSPORT & SAFER STREETS

- more reliable buses and trams so people can choose to leave their cars at home
- investment in safer, more attractive routes for walking and cycling
- making streets around schools safer for children
- free buses & trams before Christmas every year
- secure storage for bikes in residential areas

## ● REAL ACTION ON THE CLIMATE & NATURE EMERGENCIES

- solar panels on all new buildings and car parks
- managing land in a joined-up way to increase biodiversity and encourage nature recovery
- increasing natural flood management and accelerating Council action on tackling the climate crisis
